Policy Regarding Transfer Credits

We adhere to FIU's University Graduate School policy regarding credit transfer toward a doctoral degree (http://gradschool.fiu.edu/documents/Graduate_Transfer_Credit.pdf). However, it is policy of the Clinical Science Program to require all students to participate in the core clinical science courses. Students may apply to transfer credits for courses that overlap substantively in learning objectives and content with core analytic courses or breadth requirements. Research and practicum credits may be considered for transfer as well. Students enrolling in doctoral training with a Master's degree or other advanced, post-baccalaureate training are required to follow these steps if they wish to transfer credits.

1. Prepare a list of course titles & accompanying syllabi that may be eligible for transfer
2. Review with primary mentor, complete the University Graduate School Request for Credit Transfer, and submit the request to the Director of Clinical Training
3. The Director of Clinical Training will review the request and plan with the student for a competency assessment related to the course under consideration for waiver. This may include review of past assignments or assessment (written or oral examination) by the course instructor
4. Following approval by the FIU course instructor, The DCT will submit a memo of approval to accompany the transfer request to the University Graduate School
